5th Medication Safety Conference 2012

5th Medication Safety Conference 2012

15th- 17th November, St. Regis Hotel, Saadiyat Island, Abu Dhabi, UAE

With the support from the Abu Dhabi Health Services Co. PJSC (SEHA) the 5th Medication Safety Conference will once again embark on a campaign to improve patient safety in the region. Chaired by Dr. Ali Al Obaidli, Group Chief Officer Clinical Affairs, Abu Dhabi Health Service Company PJSC (SEHA), this highly anticipated event will take place from 15th - 17th November 2012 in Abu Dhabi. Reaching yet another milestone, the 5th Medication Safety Conference will run alongside the International Medication Safety Network (IMSN) Annual Meeting for the first time in the Middle East.

Based on its previous successes, the 5th Medication Safety Conference will attract over 1000 pharmacists, physicians, nurses, students and other healthcare professionals devoted to patient safety and in particular medication safety best practices from all corners of the world.

A faculty of distinguished international and regional speakers will converge on the country's capital to provide delegates with up-to-date research and strategies to both increase delegates' awareness of critical safety issues and share top-quality scientific material.

The 5th Medication Safety Conference 2012 will be a ground for interaction for the best healthcare specialists, public & private hospital managements, specialists in healthcare quality, pharmacists, representatives from pharmaceutical companies & contract research organizations, nurses and medical professionals from all over the World.

Key Topics

- Strategies for managing drug shortages
- Strategies for patient disclosure errors
- Patient safety culture – focus on medication error reporting
- Quality and medication safety performance indicators and measurement strategies
- Trigger tools for medication safety
- Ensuring medication safety practices from nursing perspective
- Technology, automation and informatics role in medication safety
- Medication safety pearls

Who should attend:

- Pharmacists • Health care policy makers • Risk Managers
- Healthcare quality specialists • Public & Private hospital management • Representatives from pharmaceutical companies
- Nurses • Medical professionals

Welcome from the Chair

We take great pleasure in inviting you to join us for the landmark 5th Medication Safety Conference, supported by SEHA (Abu Dhabi Health Services Co. PJSC) and the International Medication Safety Network (IMSN). We are proud to announce that this year marks the first time that the IMSN will be holding their annual meeting in this region, as a milestone towards setting world-class practices in medication safety and following the UAE joining the network as a member in 2010. This event reinforces the tradition that the Medication Safety Conference series has created of delivering top-quality, unparalleled scientific material, becoming a medication safety beacon for the healthcare professionals in the UAE and surrounding regions.

The Medication Safety Conference organizing committee prides itself in being a regional leader in providing delegates with the most up-to-date, best practices in medication safety and the 5th installment is sure to provide delegates with the most enriching, leading edge updates available as they will be presented by the upper echelon of world renown speakers representing leading Medication and Patient safety organizations. These organizations include the Institute for Safe Medication Practices (ISMP, USA), the American Society of Health-System Pharmacists (ASHP), American College of Clinical Pharmacy (ACCP) and Joint Commission (JC), amongst many other organizations devoted to improving the quality of patient care and safety provided in the region.

The program offers accreditation for CME hours to be delivered through the high caliber speakers' presentations and thought provoking, interactive workshops.

Thank you for your commitment and continuous support of the Medication Safety Conferences. We hope that you will enjoy the event and leave with a host of ideas, experiences and methods that you can apply at your own practice.

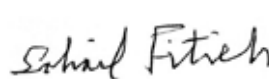

Kind Regards,
